Subject: The Yucca Mountain Nuclear Waste Facility

LSN: Relevant - Not Privileged
User Filed as: Excl/AdminMgmt-14-4/QA:N/A

Dear EIS,

1 [None of the people proposing the use of this nuclear waste facility will be living anywhere near it because they know how hopelessly dangerous it is in itself, not even considering the added danger posed by the thirteen different fault lines that run through this mountain site, making earthquakes a constant threat. I protest this Yucca Mountain Nuclear Waste Facility. Please! No Yucca Mounting! It was a bad idea from the very beginning, and it remains a bad idea now.]

Sincerely,
K. K. Mersereau
